SUMMARY

Motivated and detail-oriented second-year Business Administration student at the American University of Afghanistan with a strong interest in entrepreneurship, women's empowerment, and leadership development. Familiar with basic concepts in economics, accounting, and corporate finance through academic coursework. Fluent in English and Dari, with strong communication, teamwork, and organizational skills.

Completed a university summer bootcamp that strengthened skills in Microsoft Office, problem-solving, and basic design tools. Currently participating in the CodeWeekend program, where I am developing beginner-level coding skills. Eager to gain practical experience in research, content creation, and digital work through professional opportunities.
